

OUR MISSION

We are launching the first Food Bank organization in the Cayman Islands to bring a solution to hunger, malnutrition and poverty by providing access to good, healthy food through gathering and distributing food donations to non-profit and various food counters serving the critical needs of low-income families living in all districts with little to no cost to the recipients.

SERVING PEOPLE
IN NEED

WE VALUE...

Respect, compassion and honesty in all interactions and activities

Active listening and learning; appreciating the worth and diversity of each person

Our leadership, staff and volunteers and their diverse talents, backgrounds, passions and commitment to the community

Nutrition education and advocacy programs that lead towards self-sufficiency and sustainable food systems

The wise use of resources, creating new ways to improve our services and effectively utilizing community support that sustains our work

Creativity in pursuit of social justice

The founders : The Food Bank is founded by two local businessmen; Woody Foster and Reginald "Choppy" Delapenha. With the invaluable consultative support of experienced food bank operator, Rev. Charles Boucher - they will work tirelessly to improve the lives of those living in critical need throughout our communities.

A bread,
a word,
a hand...

Together
we stand

We envision alleviating hunger and some of its root causes in our community. At the hand of a dedicated team of staff and volunteers we are fully committed to:

- Executing our core responsibility of food distribution through a strong and viable network, to whoever is in need; regardless of nationality, culture, religion and of their background
- Educating the community about the nature of - and long-term solutions for hunger and poverty through teaching, development and wellness programs
- Advocating for a brighter future for those who are less fortunate
- Reducing food waste by working with food donors and refining receiving and distribution processes

OUR VISION

TRAININGS ←

→ DEVELOP THE FULL POTENTIAL
KNOWLEDGE ACQUISITION ←

→ DEVELOP DIFFERENT SKILLS
HELP PEOPLE IN NEED ←

Some of our objectives:

- Respond to ecological problem through recovery
- Respond in part to the problem of hunger by the redistribution of the recovered goods
- Recipients benefit by contributing to the development of long-term solutions

Hunger, it's here, right where we live. It affects every single neighborhood or district in our islands. It impacts people of every age, race, religion, and ethnicity.

And it hurts! Hunger robs children of a chance to learn, undermines health, and makes getting and holding good jobs hard.

So we're taking action against hunger!!!

Our actions

- Centralize the recovery of foodstuffs on the islands
- Develop a partnership with the various organizations that distribute food to the disadvantaged
- Reduce losses through food recycling
- Develop a collective kitchen
- Establish criteria for the accreditation of beneficiary organizations
- Train beneficiaries in the different sectors related to food
- Develop a partnership with different mentors and partners
- Create a central data system
- Feeding the needy throughout the Cayman Islands
